Abstract—Here you write abstract.
Index Terms—Here you write key words.

LIST OF ACRONYMS

RAM   Random Access Memory
FRI   Faculty of Management Science and Informatics
IoT   Internet-of-Things

I. INTRODUCTION

This is the introduction of the paper.

II. MY ONLY SECTION

Conference papers use normal size for the first letter of the conference paper.

The Internet-of-Things (IoT) is becoming very popular. One of the elements of IoT are embedded systems. There is a lot of Internets-of-Things devices currently on the market the acronym for them is IoTs.

On the Faculty of Management Science and Informatics (FRI) you will learn about RAM which is short for Random Access Memory.

The monkeys are very smart animals [1]. They are shown in Fig. 1.

Fig. 1: Nice picture of monkey [2]

We can use vibrational energy harvesting during monkey studies [3]. Its basic principle is shown in Fig. 2.

This is how you should cite text that has multiple sources [1], [3].
In table I we have some measured data.

Fig. 2: Vibrational energy harvesting principle [4]

TABLE I: My first table

	a	b	c
a	1	0	1
b	0	1	1
c	1	1	0

And in the (1) is shown a very simple formula. Based on which the variable a is a sum of two variables b and c.

$$a = b + c \tag{1}$$

We can also calculate the value of variable c by altering the equation as in (2).

$$c = a - b \tag{2}$$

This way we can create a plain unnumbered list.

Hope
Elizabeth
Josette

This way we can create an unnumbered list.

- Hope
- Elizabeth

- Josette

This way we can create an numbered list.

1) Hope
2) Elizabeth
3) Josette

This way we can create lists with descriptions.

red   nice colour
blue   not very nice colour

III. CONCLUSION

This is the conclusion of the paper.

DECLARATION OF COMPETING INTERESTS

The authors declare that they have no known competing financial interest or personal relationships that could have appeared to influence the work reported in this paper.

DATA AVAILABILITY

No data was used for the research described in the article.
